

## CAVERSTEDE EYFS SEND HUB RESOURCE LIBRARY – development

### Hub Sen 147

#### Singing Puppy

This has three light up buttons to help learn numbers and phrases. Pressing the light up buttons enhances fine motor skill development and the soft body encourages tactile stimulation.

### Hub Sen 148

#### Spinning Octopus Shape Sorter

- Press down on the octopus to set it spinning like a top. As it goes round, the toys will pop out.
- Handling and sorting the toys will encourage logical thinking, and promote hand-to-eye co-ordination and muscle development.

### Hub Sen 149

#### Wooden Activity Elephant

This is a percussion bench and gear turning game. Hit the gophers in turns to make them pop up and down.

Can help to improve concentration, hand-eye coordination and fine motor skills.

### Hub Sen 152

#### Busy Board

Helps develop fine motor skills, finger dexterity and cognitive skill. It also helps push toddlers to explore and solve problems.

Features 14 different basic skills to learn dressing skills, tell colours and improve hand-eye coordination.

### Hub Sen 153

#### Shape Sorting Garage

Garage with 3 push vehicles and 1 set of 3 keys.

Shape sorter; fit the key in its corresponding shape to unlock a garage door.

Introduces cause-and-effect concept.

Easy to unlock and open. Great way to improve motor skills.

Unlock and open the doors, push the coloured button on top to see the car exit by itself.

### Hub Sen 139

#### Driver steering wheel

Introduces animals, colours, numbers, and places through fun phrases and realistic car sounds.

Steering wheel moves the mini car, press the chunky buttons to hear phrases.

Features include light-up horn button, non-breakable wing mirror for self-discovery, gear stick, and light-up traffic lights.

Helps develop motor skills and encourages discovery and exploration.

**Hub Sen 137**  
**Dancing Duck**

- Each button has different content of music and funny sounds.
- Press the head button to make the duck move.
- When the music sounds, the lights also come on.

**Hub Sen 135**  
**Set of 3 Monster Trucks**

Three robust, chunky and easy to use trucks.

As well as having different animal characters, each of these 3 monster truck toys uses a different method of movement. These are;

- pull back motor (leopard)
- free wheel (crocodile)
- friction power (bull).

Help to improve fine and gross motor skills alongside ongoing cognitive development.

**Hub Sen 133      Hub Sen 151**

**Shape & Spin gear sorter**

- Arrange the six geometric, coloured shapes with gears on the flexible base to configure a variety of chain-reaction layouts: a row, a snake, a triangle, a square, or a circle. Regardless of the base layout, the gears will always spin
- Easy-to-grasp shapes – supporting their fine-motor development.
- Each gear can be fit only with the matching shape, strengthening your child's understanding of different shapes and sorting skills.
- Teaches cause & effect while developing their visual thinking, hand - eye coordination and fine motor skills.

**Hub Sen 132**  
**Fun Farm game**

Colours & size recognition and shape sorter; recognize the size and to correctly put vegetables & animals of different sizes into the holes.

- Fine Motor Skills Toys; hand-eye coordination; shape recognition and dexterity.
- Cognitive Flexibility

**Hub Sen 131      Hub Sen 150**
