

# Number Shape Rhymes

(Teach this as a spoken rhyme or choose a tune of your own.)

Number 0 in a loop,  
Like a red spaghetti hoop.

Number 1 stands straight and tall,  
Head to toe, one line, that's all.

Number 2 is like a swan,  
Head and neck and then it's gone.

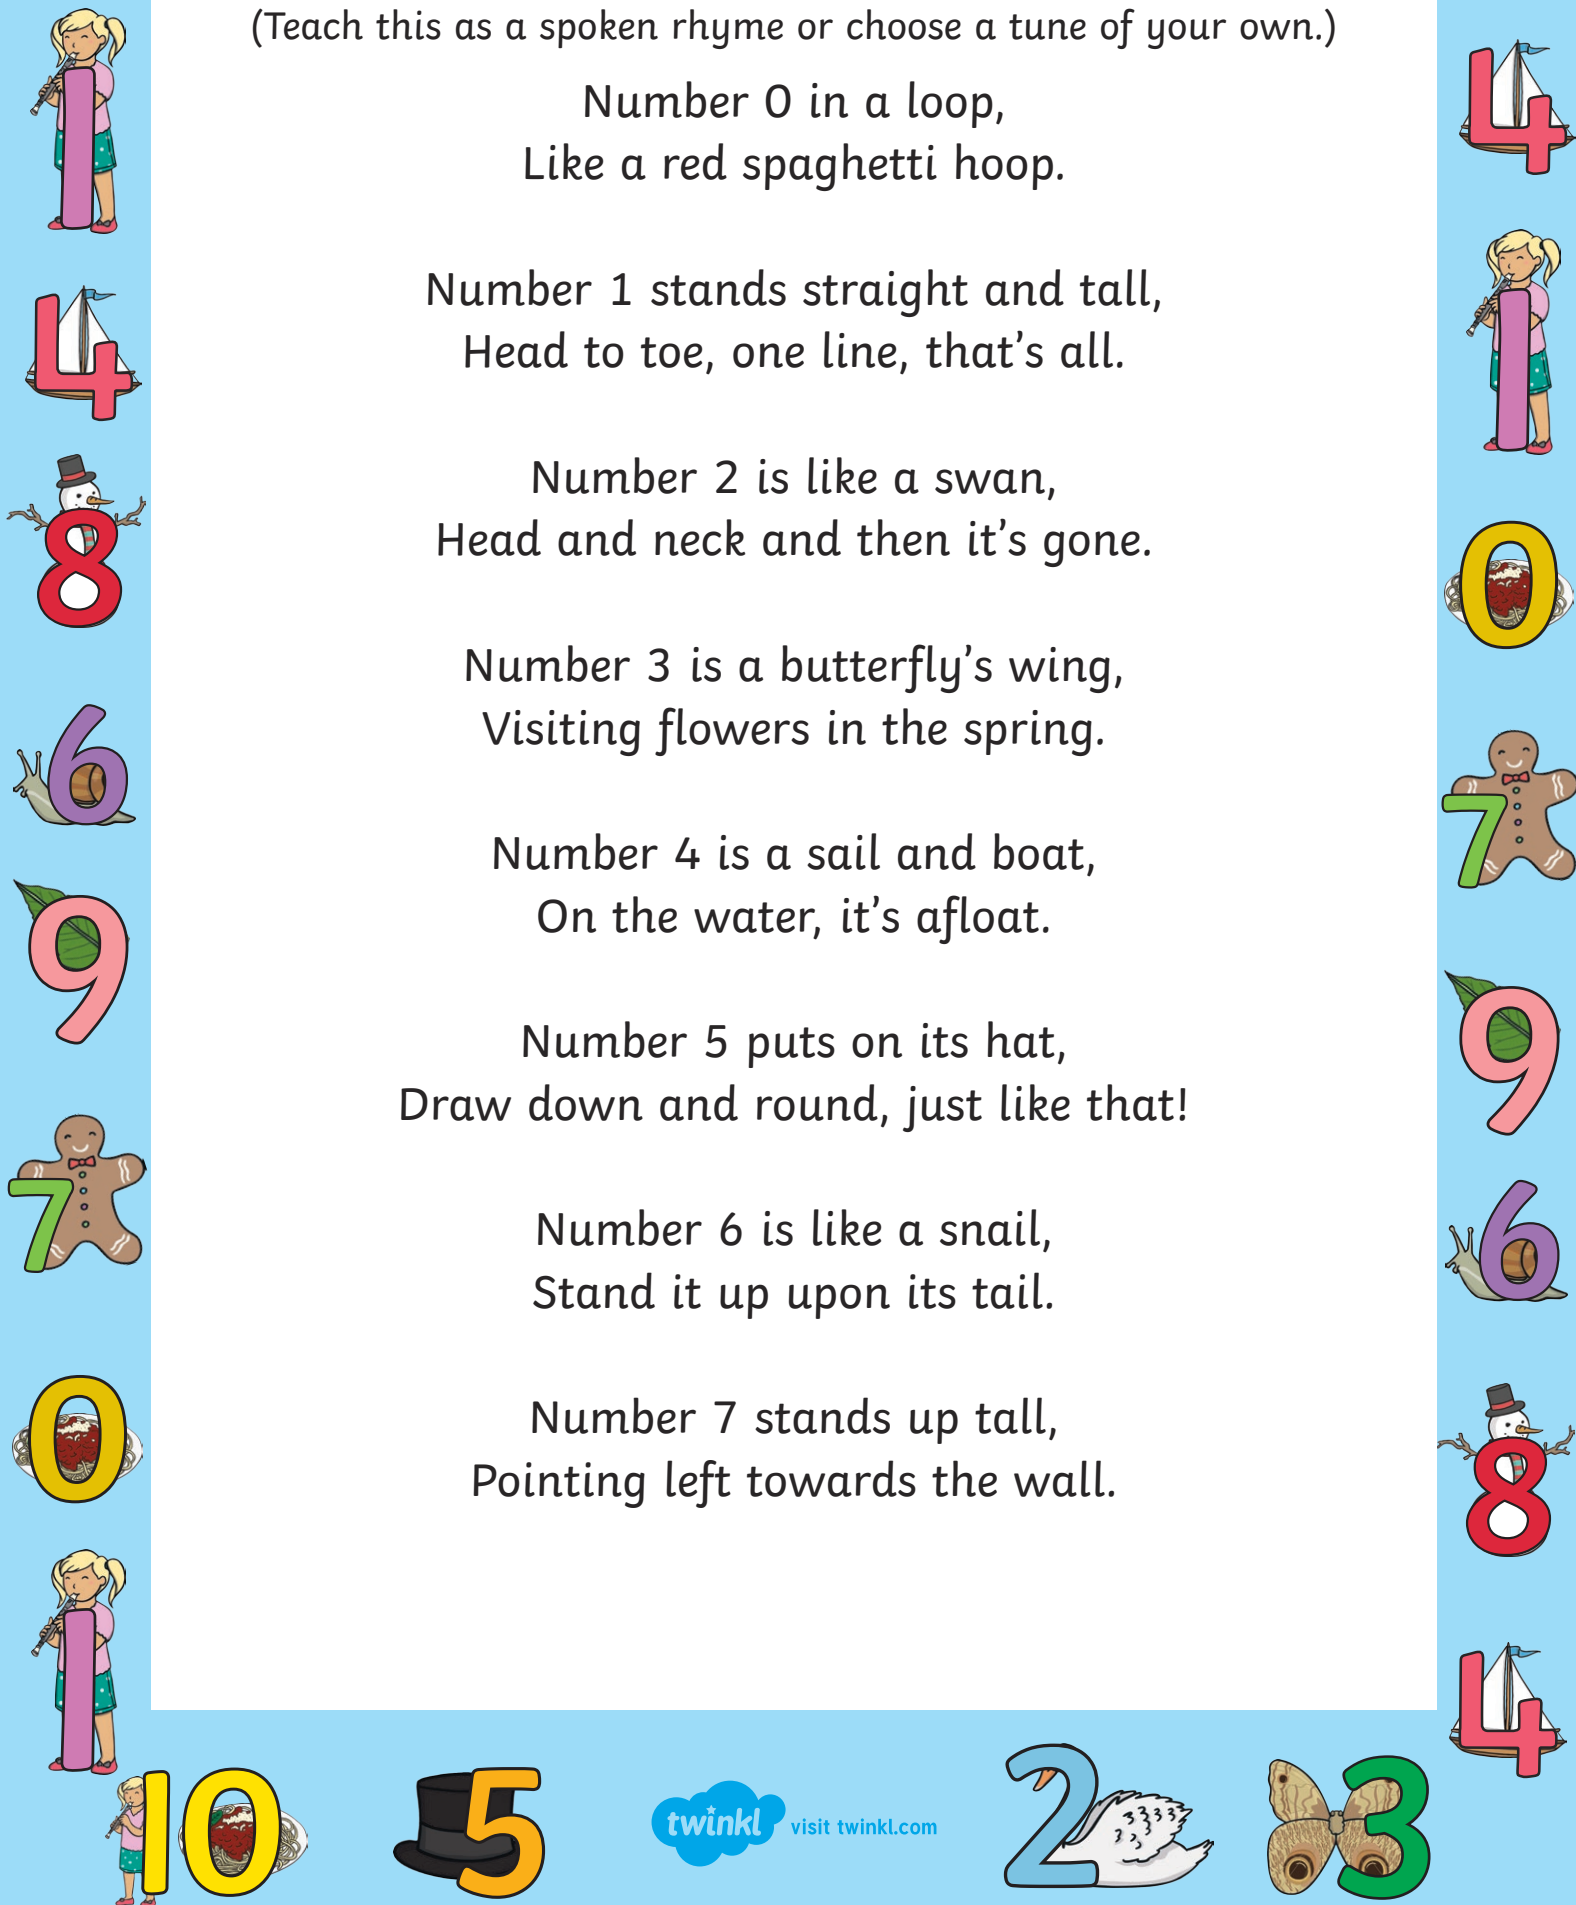

Number 3 is a butterfly's wing,  
Visiting flowers in the spring.

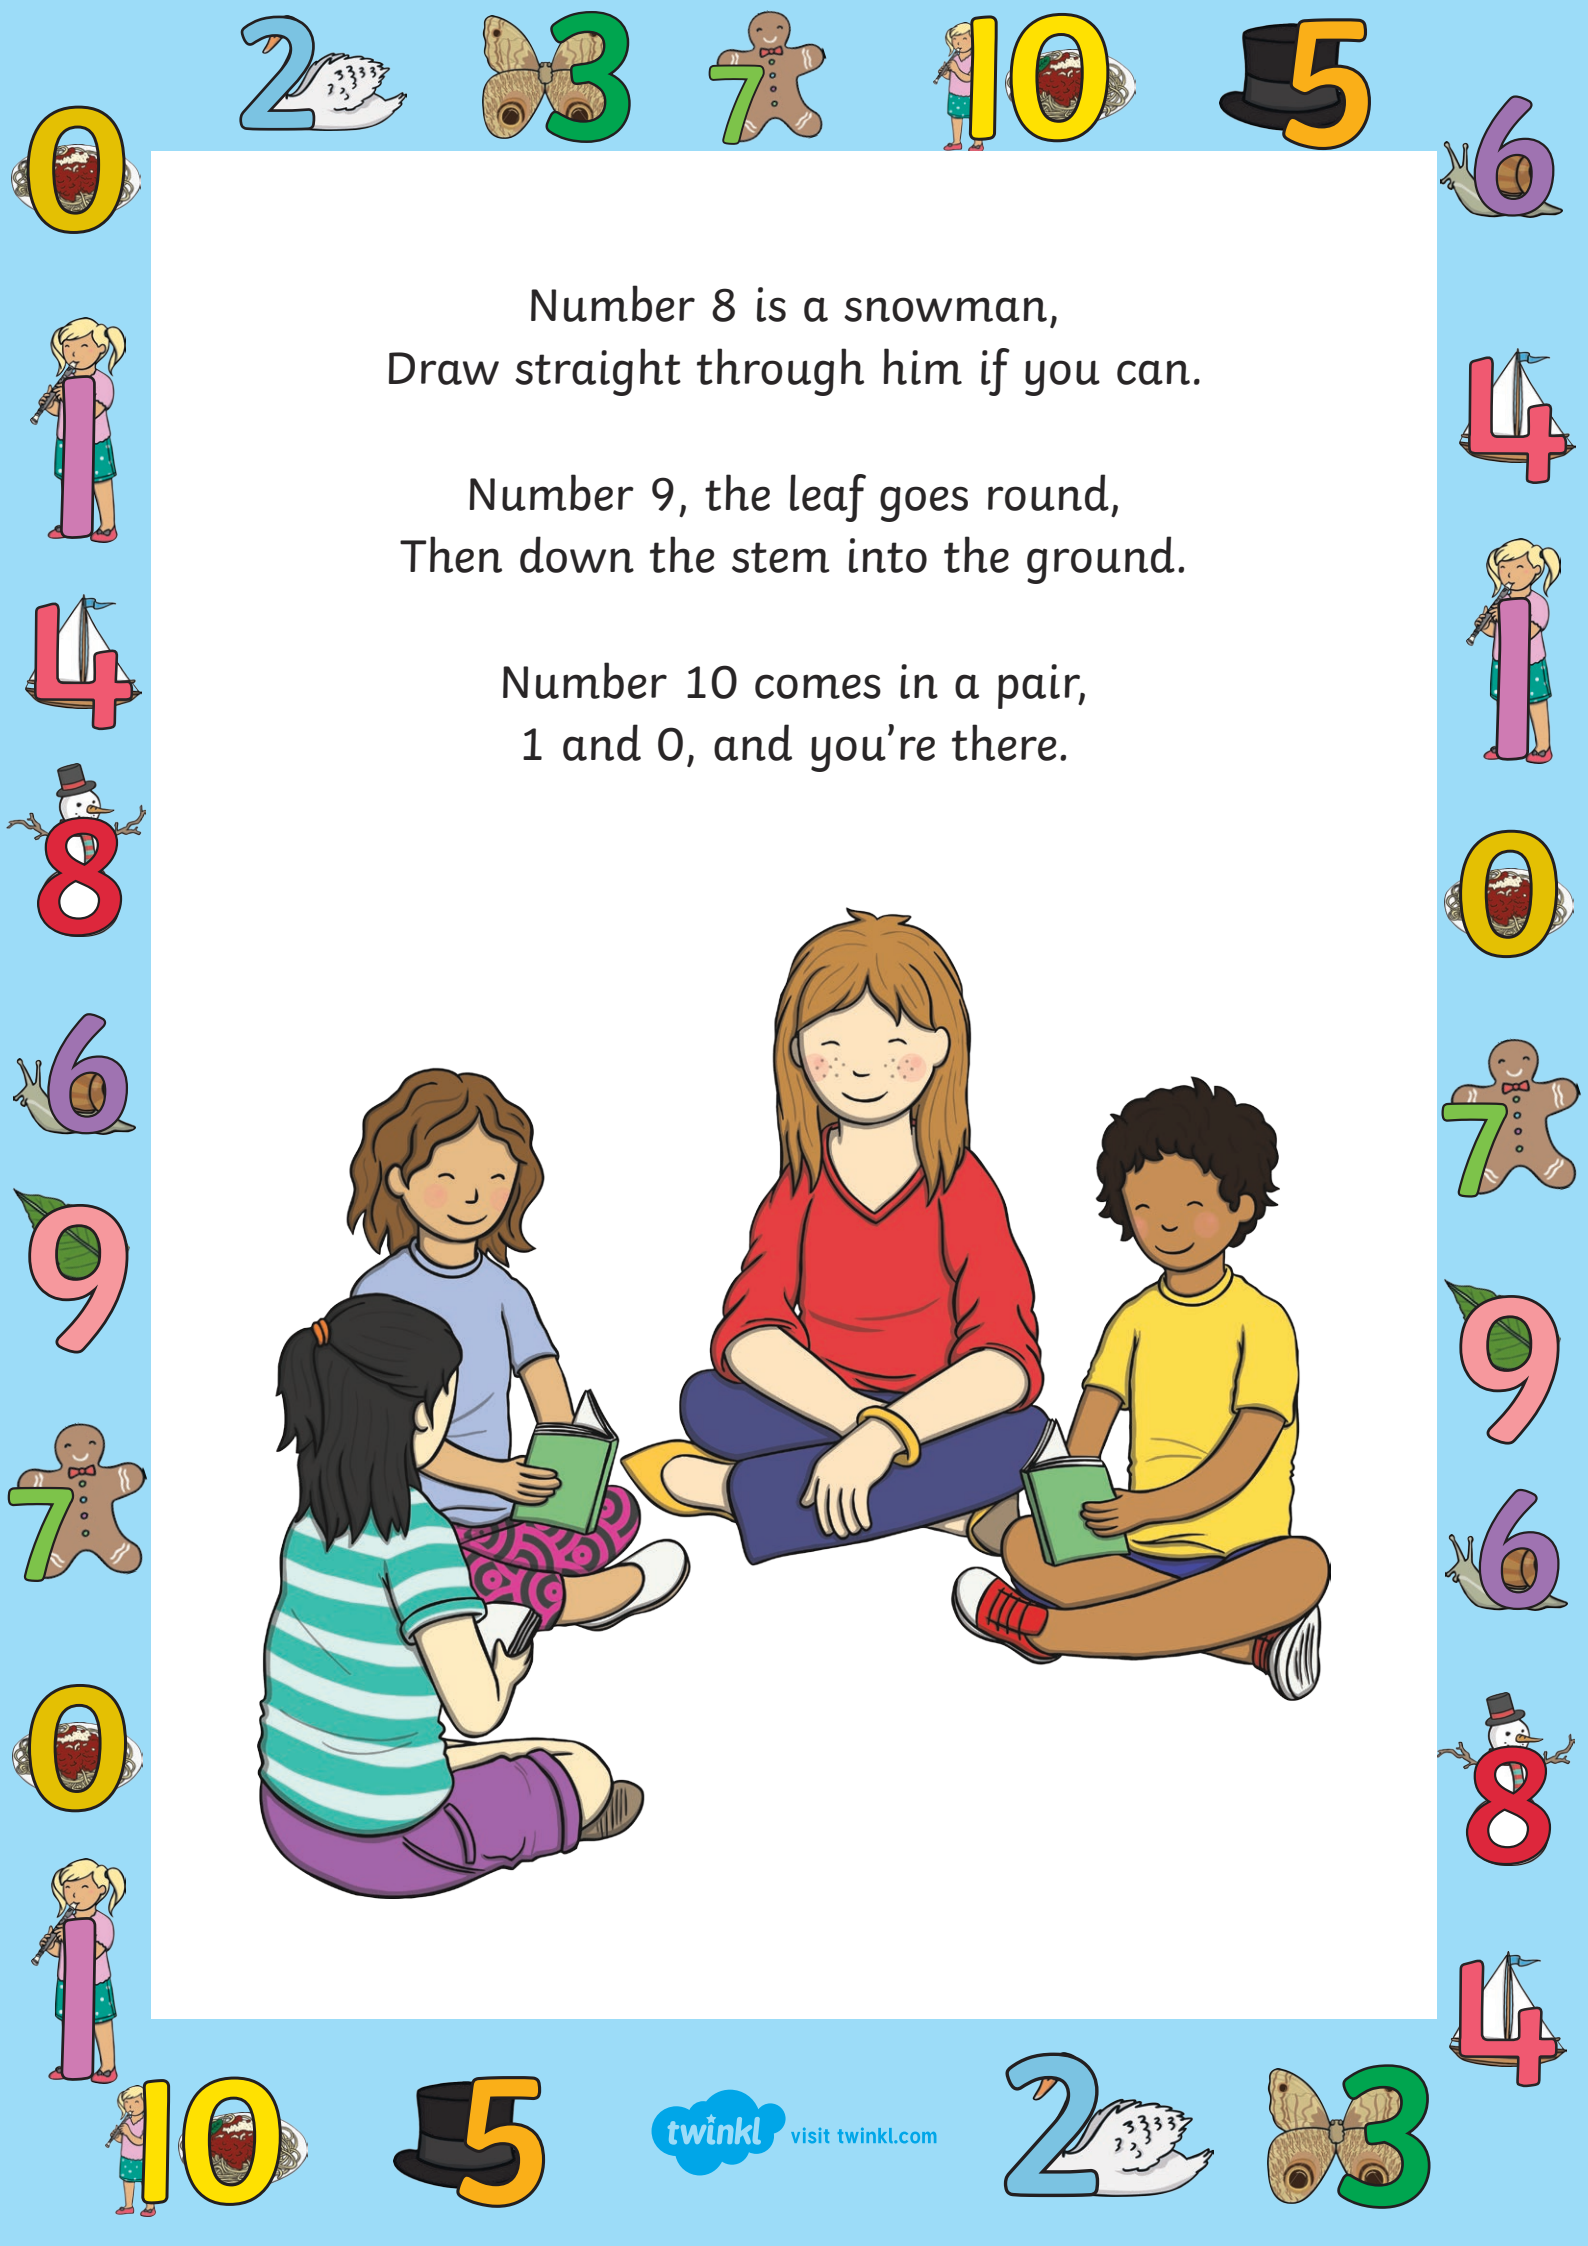

Number 4 is a sail and boat,  
On the water, it's afloat.

Number 5 puts on its hat,  
Draw down and round, just like that!

Number 6 is like a snail,  
Stand it up upon its tail.

Number 7 stands up tall,  
Pointing left towards the wall.

Number 8 is a snowman,  
Draw straight through him if you can.

Number 9, the leaf goes round,  
Then down the stem into the ground.

Number 10 comes in a pair,  
1 and 0, and you're there.
