

CAVERSTEDE EYFS SEND HUB RESOURCE LIBRARY – sensory

Hub Sen 12 Hub Sen 13

Touch and Feel Farm

- Each chunky farmyard animal is easy to lift and can be played with away from the puzzle board.
- Underneath each piece are different textures that match the board so they can be matched by feel as well as by eye.

Hub Sen 21

Natural discovery basket

Treasure baskets are an effective tool in the play and development of children. This basket consists of natural different kinds of objects and receptacles for the child to play freely with.

Hub Sen 22

Original treasure basket

This collection of our inspiring and tactile treasure basket contains an array of sensory products to offer direct hands-on sensory experiences.

Hub Sen 23

Natural relaxation basket

A collection of natural technology-free relaxation and massage resources. Each product provides a unique tactile feeling to take away the stress of the day, with different ways to apply desired pressure.

Hub Sen 24 - Hub Sen 59 - Hub Sen 60

Mirror Chimeabout

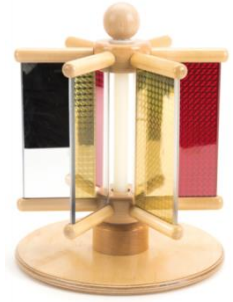

- New Chimeabout design with thick sturdy spindles.
- Wooden spinning frame with jangly shiny leaves.
- Encourages gross motor skills in handling of the components.

- There is a good range of eye catching tactile toys and can be helpful to distract and open discussion with children.

Hub Sen 38 Hub Sen 39 Hub Sen 40 Hub Sen 41

Sequin cushion

- Helps to reduce anxiety and stress
- Tactile

Hub Sen 45

Giant wooden spinning top

- Visual
- Good for children who have an interest in things that spin/turn.

Hub Sen 49

Frog in a box

Good for;

- Cause and effect
- Motor skills
- Good for turn taking
- Sensory stimulation
- Hand-eye coordination
- Encourages anticipation

Hub Sen 62

Rotating Wood Mill

- This rotating wood mill is ideal for instigating auditory and visual stimulation. The enclosed marbles and wooden pieces clack up and down the tracks as the mill is turned. The wooden frame is sturdy and robust. Suitable from birth upwards or for children functioning at this developmental stage.
- Wooden rotating spirals, ideal for engagement and curiosity.
- As the child spins the wooden top, they can watch the contents rotate and hear the bells and sounds chime as they move around the wooden casing. Each spiral has a different effect that is equally engaging.
- Enjoyable play-based learning, great for helping young children's developing coordination and encourage them to explore.
- Ideal for children who like things to spin/turn.

Hub Sen 63

Rotating Bell Flower

Push a petal to set the integral bells in motion to make a sound. A pleasant reward for minimal effort. Visual and auditory. Encourages fine motor skills, focus and an understanding of cause and effect. Perfect for those who find repetitive motions soothing.

Benefits:

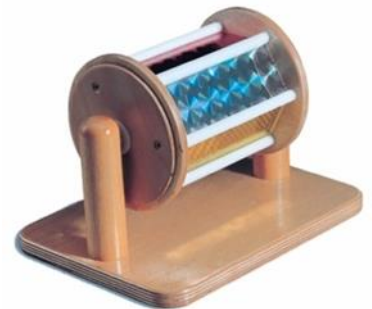

- Visual, tactile and audible
- Facilitates movement
- Helps promote an understanding of cause and effect
- Ideal for children who have an interest in things that spin/turn.

Hub Sen 64

Diffraction Roly Poli Drum

- This visually stimulating drum also makes a rewarding clatter as it rotates, giving a distinct auditory sound.
- A sensory toy perfect product for exploring different surfaces, also providing the user with visual sensory input for when a little bit extra is needed.
- Spins easily with different reflective surfaces.
- Also provides auditory stimulation as it contains marbles and balls, making it a noisy toy when it spins.
- Ideal for children who have an interest in things that spin/turn.

Hub Sen 65

Sight & Sound Drum

- Stimulating and multi-sensory.
- Visual, audible and tactile.
- The 5 tubes contain different materials, creating different sounds as they turn.
- The entire drum rotates at the slightest touch giving maximum reward for the little effort.
- Targets fine and gross motor skills, listening, vision and movement.
- Ideal for children who have an interest in things that spin/turn.

Hub Sen 72

Rainbow Sound Blocks

Colourful blocks, which children will love to unpack and pack.

- They will learn sorting and matching colours and sounds as well as to associate sounds with size and quantity
- Looking through the blocks, single or in a combination, they see the world in a number of different colours.
- This toy stimulates curiosity, motor skills and colour differentiation
