

## Early Years Pupil Premium (EYPP) 2020 – 2021 Outcomes

From April 2015 the Department of Education introduced the Early Years Pupil Premium (EYPP).

The aim of the EYPP is to close the gap between children from disadvantaged backgrounds and their peers by providing funding to early years providers to help them raise the quality of their provision. It will complement the Government-funded early education entitlement by providing nurseries, schools and other providers with up to an additional £302 a year for each eligible child.

### Ofsted Pupil Premium Reporting – Advice from DfE

*'We understand that evaluating the pupil premium's impact in the 19/20 academic year will present difficulties after the school closures to all but a small number of pupils. Instead, schools may wish to monitor and report on the grant's impact at the end of the current financial year - covering the whole period since September 2019 but giving most detail about its use and impact from September 2020 to March 2021.'*
